TANISH KALOTA

FULL STACK DEVELOPER | REACT.JS | JAVA | REST APIs

Faridabad, Haryana | +91-8700158943 | tanishkalota@gmail.com
LinkedIn: linkedin.com/in/tanish77 | GitHub: github.com/Tanish-77 | Portfolio: tanish-portfolio-omega.vercel.app

PROFESSIONAL SUMMARY

Full Stack Developer with experience in developing, maintaining, and debugging web applications using React.js, JavaScript, Node.js, Express.js, and databases. Familiar with object-oriented programming concepts, Java fundamentals, REST API integration, Git workflows, and software development lifecycle practices. Interested in building reliable full-stack applications and expanding skills in Java backend development and DevOps automation.

TECHNICAL SKILLS

Frontend:	React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Angular
Backend & Java:	Node.js, Express.js, REST APIs, Python scripting, Core Java fundamentals, OOP concepts, Exception Handling, Collections
Databases:	MongoDB, PostgreSQL
DevOps & Tools:	Git, GitHub, Postman, VS Code, Basic AWS, CI/CD, Docker and deployment fundamentals
Core Concepts:	Debugging, API integration, responsive design, problem-solving, SDLC fundamentals

PROFESSIONAL EXPERIENCE

Software Developer | JVC Solutions, Faridabad **July 2025 – July 2026**

- Developed and maintained web application features for expense management and task management systems.
- Integrated application functionality and APIs, investigated bugs, and improved usability and responsiveness.
- Worked with JavaScript, HTML, CSS, and backend scripts to support application workflows.
- Tested changes, debugged issues, and supported ongoing application maintenance.

Full Stack Developer Intern | Unified Mentor Pvt. Ltd. **February 2025 – July 2025**

- Developed web application features using React.js and the MERN stack.
- Built responsive interfaces and integrated frontend components with backend APIs.
- Practiced debugging, testing, and version control during development.

PROJECTS

Service-Hub | React.js, Node.js, Express.js, MongoDB, Razorpay
- Developed a service-booking platform featuring customer, provider, and admin integrated workflows.
- Implemented robust booking management, live status updates, reviews, and secure payment gateway integration.

E-Learning Portal | MERN Stack
- Built a web application with dynamic course browsing, secure user authentication, and responsive React interfaces.

Expense & Task Management System | JavaScript, HTML, CSS
- Contributed to full-scale application workflows and task-management features, specializing in debugging and routine maintenance.

EDUCATION

Master of Computer Applications (MCA) **2023–2025**
J.C. Bose University of Science and Technology, YMCA CGPA: 7.2

B.Sc. (Hons.) Electronics **2015–2018**
University of Delhi

Diploma in Computer Engineering **2019–2021**
DSEU CGPA: 8.8

ACHIEVEMENTS & INTERESTS

Achievements: Streamlined enterprise manager approval workflows through automation, directly resulting in reduced post-deployment operational issues.

Interests: UI/UX Design, Deep Technical Researching, Strategic Gaming.
